### **Job Posting**

A culture reflects an organization's dreams and aspirations. Engineered Assemblies fosters excellence and expertise inside a philosophy of partnership. This concept of partnership is dynamically illustrated in the company's logo where one sees all the elements to be in perfect balance and harmony. It is also found in their belief that an on-going cooperative presence and focus on everything from design excellence to completing a project on time and within budget is a shared responsibility.

The ideal candidate will be pursuing their career advancement. We offer an opportunity to gain experience with a distributor and construction company.

### **Foreman:**
